QUESTION 1

A SAS Data Integration Studio job was successfully scheduled and the appropriate event for triggering it occurred. Which statement describes the situation correctly?

A. The scheduling server calls the SAS DATA Step Batch Server over the SAS Object Server which spawns the job, getting its source code from the deployment directory, and sends the results directly to the Schedule Manager plug-in of the SAS Management Console.

B. The scheduling server uses the command obtained from the SAS DATA Step Batch Server and the source code from the deployment directory to run the job. The results from the executing command are directly sent to the scheduling server.

C. The scheduling server uses the command from the deployed job in the deployment directory and executes it with the SAS DATA Step Batch Server which gets the source code from the Metadata Server. The results are sent back to the deployment directory.

D. The scheduling server uses the command obtained from the Schedule Manager, the source code from SAS DATA Step Batch Server and executes it. The results are directly sent to the scheduling server.

Correct Answer: B

QUESTION 2
