**QUESTION 1**

Which statement is true about Information Server logging?

- A. Multiple configurations can be active at the same time.
- B. Severity levels specify the threshold for saving events in the metadata repository.
- C. You can activate or de-activate the logging configuration in DataStage Administrator.
- D. You must log into the Information Server Web Console as a DataStage administrator in order to configure logging.

Correct Answer: B

---

**QUESTION 2**

What are the valid join operations for the Join stage? (Choose two.)

- A. Inner join
- B. Where join
- C. Top outer join
- D. Right outer join
- E. Bottom inner join

Correct Answer: AD

---

**QUESTION 3**

You have a parallel job that based on operational recoverability requirements needs to be broken up into two separate parallel jobs. You have decided to use the Data Set stage to support this job design change. What two characteristics of Data Sets make them a good design consideration in your jobs design change? (Choose two.)

- A. They sort the data in a staging area.
- B. They automatically convert data types.
- C. They persist the parallelism of the job creating them.
- D. They use the same data types as the parallel framework.
- E. They persist parallelism into a temporary repository table.

Correct Answer: CD

---

## QUESTION 4

The effective use of naming conventions means that objects need to be spaced appropriately on the DataStage Designer canvas. For stages with multiple links, expanding the icon border can significantly improve readability. This approach takes extra effort at first, so a pattern of work needs to be identified and adopted to help development. Which feature of Designer can improve development speed?

- A. Palette Layout
- B. Repository Layout
- C. Snap to Grid Feature
- D. Show Performance Statistics Feature

Correct Answer: C

---

## QUESTION 5

The Change Apply stage produces a change Data Set with a new column representing the code for the type of change. What are two change values identified by these code values? (Choose two.)

- A. Edit
- B. Final
- C. Copy
- D. Deleted E. Remove Duplicates

Correct Answer: CD
