Correct Answer: BC

QUESTION 4

What effect does the Offense Retention period have on closed offenses and who can modify this period?

- A. The Offense Retention period determines how long a closed offense will be kept in the database before it is deleted. The only person who can modify this period is an IBM Security QRadar V7.0 MR4 (QRadar) admin.
- B. Once an offense is closed, any other QRadar user will be able to open it again for the time given by the Offense Retention period. The person who closes an offense is also the person who determines the offense retention period of the closed offense.
- C. The offense retention period has no effect on closed offenses. A closed offense is the same as a deleted offense, and offenses that are deleted do not have a retention time. Only QRadar admins can change the offense retention period because it is found in the Admin tab.
- D. The offense retention period has no effect on the closed offenses but only on offenses under evaluation. While the QRadar magistrate evaluates and correlates offenses, it may rely on the life span of an offense. Everyone who can create QRadar rules can modify the offense retention period.

Correct Answer: A
