- D. all of the above

Correct Answer: D

---

**QUESTION 4**

The following statement(s) can correctly be made about the use of screening for secondary prevention:

1. Screening activities may involve specialty care providers as well as primary care providers (PCPs) and the health plan
2. Secondary prevention often results in more utilization of services immediately following screening
3. Screening focuses on members who have not experienced any symptoms of a particular illness

- A. All of the above
- B. 1 and 3 only
- C. 2 and 3 only
- D. 1 only

Correct Answer: A

---

**QUESTION 5**

Various government and independent agencies have created tools to measure and report the quality of healthcare. One performance measurement tool that was developed by the Agency for Healthcare Research and Quality (AHRQ) is

- A. the Health Plan Employer Data and Information Set (HEDIS), which is a report card system for hospitals and long-term care facilities
- B. HEDIS, which is a performance measurement tool that addresses both effectiveness of care and plan member satisfaction
- C. the Consumer Assessment of Health Plans (CAHPS), which was established to develop and implement a national strategy for quality measurement and reporting
- D. CAHPS, which is a tool that measures consumer satisfaction with specific aspects of health plan services

Correct Answer: D
