Correct Answer: B

The figure is a pipe wrench.

QUESTION 2

An Allen wrench _____.

- A. is made exclusively by the Allen Manufacturing Company, LLC.
- B. fits all kinds of screws.
- C. fits screws with an octagonal recess in the head.
- D. fits screws with a hexagonal recess in the head.

Correct Answer: D

An Allen wrench fits screws with a hexagonal recess in the head of the screw.

QUESTION 3

Hammers, mallets, and sledges are all striking tools, but mallets and sledges don't have _____.

- A. a claw
- B. metal parts
- C. as much durability
- D. wedges

Correct Answer: A

QUESTION 4

On which automotive system would a "stall test" be performed?

- A. transmission
- B. exhaust
- C. engine
- D. suspension

Correct Answer: C

QUESTION 5

In the typical workshop, a plane is used for what purpose?

- A. removing thin strips of wood
- B. welding metal
- C. curing concrete
- D. loosening bolts

Correct Answer: A

A plane is a hand tool that has a sharp blade extending slightly below the bottom surface of the tool. The plane is pushed across the surface of a piece of wood and the blade removes a thin layer of wood from the surface.
