QUESTION 1

By default, what port does a Runtime Resource listen on?

A. 8181 – but it is configurable

B. 8199 – this is fixed and cannot be changed

C. 443

D. There is no default

Correct Answer: A

QUESTION 2

Which of the following is most likely to have the BIGGEST impact on database growth? (Choose two.)

A. The level of session logging that is configured for each stage of each Business Object and Process

B. Session logging archiving policy

C. The number of Blue Prism users

D. The number of Runtime Resources that are registered

E. Whether Active Queues are used

Correct Answer: AB

QUESTION 3

What factors should be considered, when designing the virtualization strategy for a Blue Prism environment?

A. Existing Data Center and Virtualization strategies

B. Support of the components

C. Desktop and Application Virtualization Strategies

D. Availability

E. All of the above

Correct Answer: E

QUESTION 4

What are benefits of using Active Directory Single Sign-on for Blue Prism? (Choose two.)

A. Policies applied by Active Directory such as multi-factor authentication and password complexity are applied to Blue Prism

B. It makes it possible to add custom security roles in Blue Prism

C. Users are assigned security roles based on their group membership in Active Directory

D. Data encryption between Blue Prism devices is provided by default

Correct Answer: CD

QUESTION 5

What factors should be considered when designing the Blue Prism Database Server Environment? (Choose four.)

A. Whether windows authentication or SQL Native authentication will be used for the Database Connection.

B. Backup and log truncation should be reviewed according to business criticality

C. Database and Log backup.

D. Ensuring that the application servers have full sysadmin rights to the database.

E. Proximity of the database server to the Blue Prism Application server.

F. Selection of the database platform, between SQL server and Oracle.

G. Ensuring that the database server can be accessed from all Runtime Resources within the network.

Correct Answer: ACDF
