QUESTION 3

You have an Azure Virtual Desktop deployment that contains a host pool. The pool has the following settings:

1.

Resource group: RG1

2.

Host pool name: Pool1

3.

Location: East US

4.

Host pool type: Pooled

The deployment contains the workspaces shown in the following table.

Name	Resource group	Location
Workspace1	RG1	East US
Workspace2	RG1	West US
Workspace3	RG2	East US
Workspace4	RG2	West US

For Pool1, you plan to create a RemoteApp application group named AppGroup1.

In which workspaces can you register AppGroup1?

- A. Workspace1 and Workspace2 only
- B. Workspace1 and Workspace3 only
- C. Workspace1 only
- D. Workspace1, Workspace2, Workspace3, and Workspace4

Correct Answer: B

You can only register the app group to workspaces created in the same location as the host pool. Also, if you've previously registered another app group from the same host pool as your new app group to a workspace, it will be selected and
