QUESTION 1

A solution developer sets the maximum rate for a message flow to 100 messages per second. What is this rate evaluated across?

A. All instances of all input node types.

B. Each instance of all input node types.

C. Each instance of each input node type.

D. All instances of each input node type.

Correct Answer: A

QUESTION 2

Which command creates basic user credentials to allow logging into the web user interface?

A. mqsiwebaceuseradmin

B. mqsiacldwebuseradmin

C. mqsiwebuseradmin

D. mqsiuseradmin

Correct Answer: A

QUESTION 3

When developing RESTful APIs, what is the main purpose of the RESTAsyncRequest node?

A. Allows a REST request to be issued to a REST API and return control to the flow without waiting for a response

B. Allows a REST operation request to be exposed asynchronously and return control to the client without waiting for a response C Allows a REST operation request to be exposed asynchronously and return control to the flow without waiting for a response

C. Allows a REST request to be issued to a SOAP API and return control to the flow without waiting for a response

Correct Answer: A

You can use a RESTAsyncRequest node in a message flow to issue a REST request to an external REST API, and return control to the flow without waiting for a response. The response is received by a RESTAsyncResponse node, which can be in a separate message flow but must be in the same integration server. The nodes are used as a pair, and correlate responses against the original requests by using a unique identifier, which is specified on both nodes. https://www.ibm.com/support/knowledgecenter/SSMKHH_10.0.0/com.ibm.etools.mft.doc/bz90920 _.html

QUESTION 4

Which standard is used to define web service security mechanisms?

A. MSDN

B. Open Grid

C. innoQ

D. OASIS

Correct Answer: D

QUESTION 5

What are two purposes of a user trace?

A. Debug message flows and integration servers

B. Provide more information than the administration log

C. Provide flow usage metrics

D. Detect Web-Admin login failures

E. Monitor user activity

Correct Answer: AB
