QUESTION 1

Which statement is true about selecting Live Link when setting up a smart section?

- A. The data displayed in the section is related to the choices selected by the user at run time.
- B. The data will always be pulled from the referenced record every time the smart section is rendered.
- C. The smart section cannot be populated by workflow, dataconnect, or data integrator, only by an active end user.
- D. The associations used in connecting the records at run time do not need to be pre-defined but can be established at run time.

Correct Answer: B

QUESTION 2

What is the most efficient way to add an additional 10 new entries to an existing list?

- A. Use a workflow to add the new list values.
- B. Use Data Integrator to import a new list with the new values.
- C. Select the list, enter all the values, and then save the entries.
- D. In the form that lists the values, enter each value as it is needed for that particular record.

Correct Answer: C

QUESTION 3

Which statement is true about the Summary Columns section on the Order and Group tab of a query?

- A. It is used with every field type.
- B. It returns the records in a summary line instead of as individual records.
- C. It sums any selected number field for each group type and/or for total records.
- D. It allows the developer to type in a query description for other developers to preview

Correct Answer: C

QUESTION 4

When looking at a workflow instance, what can the red border around a task mean?

- A. The task has failed.

- B. The task was skipped.
- C. The task is a critical task.
- D. The task has been completed.

Correct Answer: A

QUESTION 5

How is Workflow Logging turned on in the Admin Console?

- A. Check the box for Roll Workflow Logging
- B. Check the box for Workflow Logging and click Apply
- C. Check the box for Enable All Logging and click Apply
- D. Check the box for Workflow Logging and restart the application

Correct Answer: B
