QUESTION 1

After making changes to a portal, what actions are required for the user to see the changes?

- A. clear the browser cache
- B. sign out and sign back in
- C. bounce the application server
- D. clear the application cache from the admin console

Correct Answer: B

QUESTION 2

Once the form with sections to be moved is open in Form Builder, which two statements are true?

- A. Moving a section will remove its section actions.
- B. Moving a section will change its security permissions.
- C. Moving the sections impacts the tab order of the fields.
- D. The form must be in a Revision in Progress state to move the sections.
- E. In order to access the section actions, the tab label must be selected in the navigation section.

Correct Answer: DE

QUESTION 3

What is the purpose of the Platform Logging feature of the TRIRIGA Admin Console?

- A. It logs all platform related errors to a debug file.
- B. It requires a restart of the application server to enable.
- C. It logs both application and platform related errors to a debug file.
- D. It enables real-time, debug-level logging for numerous platform features.

Correct Answer: D

QUESTION 4

What is the purpose of the special value \$\$today\$\$ in a field filter?

- A. it will filter based upon the current date

- B. it will filter based upon the last 24 hours
- C. it will filter based upon the day of the week
- D. it will filter based upon the date the query was created

Correct Answer: A

QUESTION 5

What is a unique feature of the Admin Group security group in TRIRIGA?

- A. The Admin Group is not visible in the TRIRIGA Security Manager by default and can only be accessed by using the System account.
- B. Whenever a change is made to the Admin Group the permissions for all Modules are reset to Full Access and all business objects (BO) are reset to Inherit From Parent.
- C. Permission settings for all Modules, BOs, Forms, Sections, and Actions in the Admin Group are defaulted to grant Full Access permissions and cannot be changed.
- D. Members of the Admin Group are automatically allowed to access all kinds of records and most tools in the platform environment whether they have been granted explicit permission to do so or not.

Correct Answer: D
