QUESTION 1

What is the purpose of the special value \$\$today\$\$ in a field filter?

- A. it will filter based upon the current date
- B. it will filter based upon the last 24 hours
- C. it will filter based upon the day of the week
- D. it will filter based upon the date the query was created

Correct Answer: A

QUESTION 2

Which statement is true regarding a synchronous workflow that uses temporary data and is called using a call workflow task in an asynchronous workflow?

- A. A synchronous workflow cannot be called from an asynchronous workflow.
- B. Since the synchronous workflow was called from an asynchronous workflow, the workflow will use permanent data.
- C. There is no user interacting with the data therefore there is no temporary data, and in this case the workflow will fail.
- D. A synchronous workflow cannot be called using a call workflow task; it can only be called from a state transition sub action.

Correct Answer: B

QUESTION 3

What happens when a related portal section is deleted from the Related Portal Section library?

- A. It requires changes in the Security Manager.
- B. It permanently deletes the section from the system.
- C. It removes the section as an option for users of the particular portal.
- D. It stays on the user's portal until the next time the system is restarted.

Correct Answer: B

QUESTION 4

Which statement is true about the State Transition Family when adding a new business object (BO) to a module, and this new BO is not the base BO?

- A. The BO automatically starts out with a blank state transition family.
- B. The BO automatically starts out with a copy of the base BO's state transition family.
- C. The BO automatically starts out with a copy of the state transition family from the BO that was modified last.
- D. The BO automatically starts out with a copy of the state transition from the BO that was modified last that is within the same module.

Correct Answer: B

QUESTION 5

When creating a new business object (BO), selecting the Show Single Tab option will cause what condition to be true?

- A. Records created from this BO will be displayed on forms that only show a single tab.
- B. Records created from this BO will be displayed by themselves in new tabs on existing forms.
- C. Records created from this BO will be displayed by themselves in separate tabs on new forms.
- D. Records created from this BO will be displayed on a new form, which is automatically generated for the BO.

Correct Answer: A
