QUESTION 1

What are API marketplaces?

- A. They are application stores for APIs that offer a variety of capabilities including multi- tenancy.
- B. They are the location where third-party cloud service providers cross connect their networks.
- C. They are where developers create APIs for consumption by lines of business looking to use cloud service providers.
- D. They are where developers go to offer their services in creating functions for cloud computing public, private, and hybrid environments.

Correct Answer: C

QUESTION 2

What greatly affects the speed of cloning VMware templates?

- A. speed of disk
- B. type of network card
- C. format of the VM image
- D. architecture of the video card

Correct Answer: C

QUESTION 3

What are the benefits for an organization utilizing dynamic infrastructure for running its workloads?

- A. Organizations no longer need their own data centers which reduces the cost of their own IT expenditure.
- B. Dynamic infrastructure provides the means to achieve elastic scalability which ensures that organizations keep constant and predictable costs for the IT resources utilization.
- C. By leveraging pooled IT resources, dynamic infrastructure provides flexible IT capacity which better aligns the allocation of IT resources to business process needs of the organization
- D. Dynamic infrastructure is essential for the implementation of application service catalogs which reduces the time to market of such applications and increases the organization's business revenue.

Correct Answer: C

QUESTION 4

Which cloud service provides companies with computing resources including servers, networking, storage, and data

center space on a pay-per-use basis?

- A. Platform as a Service
- B. Software as a Service
- C. Database as a Service
- D. Infrastructure as a Service

Correct Answer: C

QUESTION 5

Which statement is true about Bluetooth and WiFi in a cloud computing environment?

- A. They always use two-factor authentication.
- B. Their utilization is not compliant with main safe requisites.
- C. They require automatic locking if the device is idle for a certain period of time
