QUESTION 1

Why is it a best practice to use "omit" logic rather than "keep" logic when creating a signaturethat signs only part of a form?

A. It is less work for a forms designer to create signatures that use "keep" logic.

B. "Keep" logic can only be used with Clickwrap signatures, making it difficult to change to a different signature type if required in future.

C. Using "omit" logic avoids the risk of creating too much overhead.

D. Using "omit" logic reduces the risk that form items will be unintentionally excluded from the signature.

Correct Answer: D

QUESTION 2

Which of the following are valid type property values for an XFDL submit button?

A. save, submit

B. draft, submit

C. done, replaceall

D. done, submit

Correct Answer: D

QUESTION 3
