QUESTION 1

Topher would like to limit the size of all Library File Resource components.

How can he do this task?

- A. Within the IBM WebSphere Portal administration, set the maximum LibraryFile Resource.
- B. Within each Library File Resource component, Topher can set the maximum file size.
- C. Within the WebSphere Portal administration, under IBM Web Content Manager Libraries, set the maximum Library File Resource.
- D. Set the maximum file size for Library File Resource components within the WCMConfigServices.Properties file.

Correct Answer: D

QUESTION 2

James would like to display metadata from a federated document. What tag should he use to reference the title of the document?

- A. [Placeholder name="title"]
- B. [Property field="title" context="current" type="federated"]
- C. [AttributeResource attributeName="title"]
- D. [Element key="title" context="current" type="federated"]

Correct Answer: C

QUESTION 3

Mario is creating a rendering plug-in. He is writing a plug-in that uses attributes from the current user's profile to determine whether the body of the plug-in tag is rendered or not. The plug-in will be referenced within his web content using a plug-in tag. In order to create this plug-in, Mario must implement which interface?

- A. com.ibm.workplace.wcm.api.plugin.context.ContextPlugin
- B. com.ibm.workplace.wcm.api.plugin.rendering.RenderingPlugin
- C. com.ibm.workplace.wcm.api.plugin.content.ContentPlugin
- D. com.ibm.workplace.wcm.api.plugin.authoring.AuthoringPlugin

Correct Answer: B

QUESTION 4

Graham is a content developer. He has been tasked to create several forms for the Internet site for his company. He does not want to have to create a presentation template for every page that requires a form. How could he reduce the number of presentation templates needed to display the various forms for his Internet site?

- A. Within his authoring templates, Graham could place a Text field. He could then select the HTML forms needed within the text field.
- B. Within his authoring templates, Graham could place an Option Selection field. Then, he could create the HTML forms as separate HTML objects and reference them with the Option Selection fields of his content item.
- C. Within his authoring templates, Graham could place a Link field. Then, he could create the HTML forms as separate HTML objects and reference them from the Link fields of his content item.
- D. Within his authoring templates, Graham could place a Component Reference field. Then he could create the HTML forms as separate HTML objects and reference them from the Component Reference fields of his content item.

Correct Answer: D

QUESTION 5

Ella is a web developer using IBM Web Content Manager, and Heather is a Web Content Manager administrator. Ella has been asked to update one of the presentation templates, but while she is able to open and view the presentation template, she is unable to edit it.

What is the minimum access that Heather must give Ella?

- A. Heather must edit the Effective Security section and give Ella Edit access.
- B. Heather must edit the Effective Security section and give Ella Delete access.
- C. Heather must edit the Administrator Defined Security section and give Ella Edit access.
- D. Heather must edit the User Defined Security section and give Ella Delete access.

Correct Answer: C
