**QUESTION 1**

When a user requests a certain piece of information, the interviewer may ask what the user would do with that information. From the techniques described in the BI Professional Workshop, why is the interviewer asking this particular question?

- A. To determine if the user is allowed access to that particular information and therefore should not be included in his subject area.
- B. To determine if the user understands how the information is functionally used within the organization.
- C. To determine if the information is a security concern and should therefore be made unavailable to other users.
- D. To determine if the information is an actionable item for the user and therefore part of a business requirement.

Correct Answer: D

---

**QUESTION 2**

A company wishes to coordinate the anticipated hiring activities of all of the departments in a given division of the organization. The CEO has mandated a limit of 50 total new hires for the coming fiscal year. The various departments must coordinate future hiring. The CEO would also like to see reports comparing the projected hiring vs. the actual number of new hires by department.

Which set of Cognos 8 components BEST supports the company's needs?

- A. Planning and Report Studio
- B. Report Studio and Analysis Studio
- C. Event Studio and Report Studio
- D. Planning and Data Manager

Correct Answer: A

---

**QUESTION 3**

A developer has specified a maximum of two report processes for the application. While monitoring the application, the developer notices that only one report process is running.

Which of the following would account for this?

- A. The number of affinity connections per BI Bus is set too high.
- B. The configuration size for the application is set too low.
- C. The number of low affinity connections has been exceeded.

D. The number of report requests is too high.

Correct Answer: A

---

**QUESTION 4**

Which of the following is a critical component in delivering Corporate Performance Management throughout an enterprise?

- A. Drill down from summary to detailed information within individual subject areas.
- B. Drill across from one subject area to another through conformed dimensions.
- C. Star schema data marts designed to facilitate analysis and reporting.
- D. Event management designed to monitor the status of Key Performance Indicators.

Correct Answer: B

---

**QUESTION 5**

Which of the following allows greatest flexibility in formatting but generally has the lowest interactivity with the users?

- A. Analysis
