QUESTION 1

A multi-server installation of Cognos BI must be performed.

Which of the following is a valid strategy for installing across multiple servers?

- A. Separate the gateway component from other server components to restrict report request processing to the Web server tier.
- B. Enable dedicated request processing, by installing a dispatcher in the Web server tier to act as a primary dispatcher for routing requests to other dispatchers.
- C. Scale the system vertically by installing one instance of all Cognos 8 services on a larger computer capable of managing more concurrent request threads.
- D. Enable load balancing of requests for content management services by installing multiple instances of Content Manager.

Correct Answer: B

QUESTION 2

When following the Information Focused approach, what should the users bring to the initial interview?

- A. Copies of key reports, structure of database tables, job responsibilities, and objectives
- B. Job responsibilities, objectives, what information they need to get their work done, and copies of key reports
- C. List of reports they desire, what information they need to get their work done, and structure of database tables
- D. Job responsibilities, objectives, and a list of reports they desire

Correct Answer: B

QUESTION 3

Which of the following is NOT a critical feature or function of a scorecard?

- A. Targets
- B. Projections
- C. Tolerances
- D. Histories

Correct Answer: B

QUESTION 4

A company receives new orders each night. Those orders must be filled and packed for shipment before the end of each day. The users need to know which orders have arrived during the night and which still require filling throughout the day. Supervisors also need the flexibility to inquire against the database on a variety of items outside of the standard order filling process (e.g. customer outstanding balance or shipping rates).

Which of the following Cognos 8 components BEST fills the company's needs?

- A. Analysis Studio and Event Studio
- B. Report Studio and Query Studio
- C. Query Studio and Metric Studio
- D. Analysis Studio and Report Studio

Correct Answer: B

QUESTION 5

After a BI application is placed into production, all of the following are considered part of the process to prepare for the next iteration of the application, EXCEPT:

- A. record and track enhancement requests
- B. communicate with users to insure the application is delivering value
- C. periodically re-apply the V-test model against the developed components
- D. enhance application documentation to reflect errors and omissions

Correct Answer: C
