QUESTION 1

Which of the following statements about a system-period temporal table is TRUE?

- A. Rows can be archived into a history table which is always read only
- B. Every row has a pair of timestamps which is set and managed by the application
- C. AN SQL query for auditing can be run against current data or history data, but not both
- D. The table contains only the current active rows

Correct Answer: B

In a system-period temporal table, every row has a pair of timestamps, which are set by the DB2 system and recorded in the begin_column and end_column columns. DB2 uses the SYSTEM_TIME period to audit the data changes. It provides the application with the database managed row begin and row end timestamp maintenance, providing non-overlapping time periods with no gaps in time.

QUESTION 2

The PERIOD BUSINESS_TIME clause on a DDL statement is used in which of the following? (Choose two.)

- A. A bitemporal table
- B. A system-period temporal table
- C. A created global temporary table
- D. A declared global temporary table
- E. An application-period temporal table

Correct Answer: AE

QUESTION 3

How can a stored procedure be invoked?

- A. Via an SQL SELECT statement
- B. Via a CALL statement using SPUFI
- C. Directly via a RUN PROGRAM command
- D. Via a CALL statement from within an application program

Correct Answer: D

QUESTION 4

Which of the following programming techniques can be used to check for any error codes after executing an SQL statement?

- A. Declaring a cursor
- B. Using the WHENEVER statement
- C. Using DCLGEN to produce declarations for tables
- D. Dynamically executing a statement with parameter markers

Correct Answer: C

QUESTION 5

Given the following: Which of the following occurs automatically when rows are deleted from POLICY_INFO_AET?

```
CREATE TABLE POLICY_INFO_AET  
(POLICY_ID CHAR(10) NOT NULL,  
COVERAGE INT NOT NULL);
```

```
CREATE TABLE POLICY_INFO_ARC  
(POLICY_ID CHAR(10) NOT NULL,  
COVERAGE INT NOT NULL);
```

```
ALTER TABLE POLICY_INFO_AET ENABLE ARCHIVE USE POLICY_INFO_ARC;
```

```
SET SYSIBMADM.MOVE_TO_ARCHIVE = 'Y';
```

- A. The deleted rows are moved from POLICY_INFO_AET table to POLICY_INFO_ARC table
- B. The logically deleted rows are removed from POLICY_INFO_ARC table during the REORG
- C. The deleted rows are removed from both POLICY_INFO_AET and POLICY_INFO_ARC tables
- D. The deleted rows are moved from POLICY_INFO_AET table to POLICY_INFO_ARC table during the REORG

Correct Answer: D
