QUESTION 1

A company has a Product Returns report. The Return Comments query item is present in the list query but was left out of the list due to space constraints on the report page. The users have asked to see this information interactively.

How could the report author add this functionality with only minimal changes to the existing report?

- A. Add HTML Items to the Product Name cell that use Report Expression to assign [Return comments] to HTML span title.
- B. Add Product Description as a list column and use the Render Variable property and a prompt to conditionally render the column.
- C. Add a Drill-through definition to the Product name cell and set the Target to Label and Data Item to the [Return comments] query item.
- D. Insert a master-detail single row microchart to the Product column cell with transparency on and chart Tooltips property set to Absolute.

Correct Answer: B
