QUESTION 4

An operator who can create custom content has been given access to a variety of sites including Patches for Windows (English) and Windows QA, a custom site for testing patches. Four months ago she created a baseline that included 130 updates and published it into the Windows QA site. She needs to deploy this baseline to 100 computers that recently came online. She notices that many of the Windows patches in the baseline are out of date because she see the message: Source Fixlet differs.

What does the operator need to do to correct this issue?

A. Recreate the entire baseline from scratch.

B. Use the Sync All Components button in the baseline.

C. Split the patches into two baselines; a baseline cannot be created that has 130 Fixlets.

D. Remove the Fixlets from the baseline that have the message - Source Fixlet differs; they have been discontinued by Microsoft.

Correct Answer: B
