QUESTION 2

What does the Network Hierarchy provide relating to the "whole picture" that is helpful during an investigation?

- A. It allows hosts that are marked to be known to have vulnerabilities to be seen quickly.
- B. It allows for the isolation of traffic between the hosts in question for more in depth analysis.
- C. It allows for the removal of infected hosts from the network before being added back into the network.
- D. It allows for the identification of known hosts on the network versus those that aren't members of the network.

Correct Answer: D

QUESTION 3

What are the two available formats for exporting event and flow data for external analysis? (Choose two.)

- A. XML
- B. DOC
- C. PDF
- D. CSV
- E. HTML

Correct Answer: AD

QUESTION 4

What is the correct procedure for closing an offense?

- A. From the Offenses Tab, select the offense(s), click on Actions, select Close
- B. From the Dashboard, select the offense(s) in question, right click and select Close
- C. From the Offense Summary Page, click Display and select Close and select the reason
- D. From the Offenses Tab, select the offense(s), right click on selection, select Close

Correct Answer: A
