**QUESTION 1**

During process discovery, the business subject matter experts (SMEs) make the following statement about how the process starts: "Today, our users access the database that stores new orders and copy that information manually onto a request form. This form is passed from one participant to another during the process. In our future state, we would like IBM Business Process Manager V7.5.1 to connect to the database directly, so that we don't have to manually create our request forms." The IT representatives from the client indicate that this should be possible. How should the BPM analyst respond to this?

- A. Defer this discussion for the BPM developers.
- B. Gather all the technical details for this integration.
- C. Capture that the process should start systematically and identify high level inputs to the process.
- D. Inform the business SMEs that this is not possible as the process must start with a Human Task.
