QUESTION 1

After enabling *ALL auditing on an object, which action will help an administrator determine when that object was used?

- A. Analyze the system audit journal for the desired entries.
- B. Display the QHSTlogto see instances of audited object usage.
- C. Examine the QSYSOPR message queue for specific object usage notifications.
- D. Issue the DSPOBJD command using the OUTPUT(*PRINT) parameter to generate usage history.

Correct Answer: A

QUESTION 2

An administrator creates a new user profile and assigns that new profile to two groups that manage most of the users on the system, GROUP1 and GROUP2. GROUP1 has update authority for APP1 application. GROUP2 has only read authority to APP2 application. The new user is able to access APP1 and APP2 as expected.

A month later the administrator needs to allow only this user to update three tables in APP2. No other users should have this system privileged.

What should the administrator do to achieve this goal?

- A. Add the three tables to group profile GROUP1.
- B. Add a private authority to the three tables in APP2 for the user.
- C. Change the group profile GPOUP2 to allow update to the three tables.
- D. Change the *EXECUTE authority on the three tables to allow GROUP1 to access them

Correct Answer: B

QUESTION 3

A new type of workload that is running through the batch subsystem requires a separate memory pool. What should the administrator do to enable the workload to run in the separate memory pool?

- A. Change the subsystem description to have an additional memory pool. Add a routing entry to direct the new jobs into the pool.
- B. Change the subsystem description to have an additional memory pool. Change the SBMJOB parameters to direct the job into the new pool.
- C. Select an unused shared memory pool and configure it for the proper size and activity level. Add a routing entry to direct the new jobs into the pool.
- D. Select an unused shared memory pool and configure it for the proper size and activity level. Change the SBMJOB

parameters to direct the job into the new pool.

Correct Answer: A

QUESTION 4
