QUESTION 1

What is the key advantage of the IBM TS7720 over the EMO DLm?

A. Larger maximum capacity

B. Virtual drive scalability up to 256

C. Supports bi-directional replication in a grid

D. Deduplication which does not use hashing algorithms

Correct Answer: C

QUESTION 2

Which is the key benefit to be gained by adding the optional HA feature to a TS3SOO Tape Library?

A. Access time to data is halved

B. Drives can be added non-disruptively

C. Continued operation in case of failing accessory

D. Simple library expansion by removing the service bay

Correct Answer: C

QUESTION 3

Which company is a key competitor to IBM in the enterprise tape area?

A. HP

B. HDS

C. Oracle

D. Quantum

Correct Answer: C

QUESTION 4

A customer is impressed by the cost savings shown in the IBM proposal to consolidate their tape infrastructure replacing

Oracle 9840 and 9940 tape drives with TS1140. However they are concerned about replacing their 9840 drives as they have a specific workload which requires fast access to the data. What is the best response to this concern?

A. the 9840 does not provide fast access so there is no issue

B. the TS1140 has a faster data rate than the 9840 so it will provide faster access to first byte of data

C. instead of a specific drive type for the workload, using the IBM Economy Data Cartridge provides the required fast access

D. the newer drive technology in the TS1140 will fail less frequently than the 9840 so overall provide faster access capability

Correct Answer: C

QUESTION 5

An existing TS7740 customer has chosen to upgrade with additional 200 MB/sec Enablement and 7 TB Tape Cache. Which of the following is the best business objective on the above upgrade?

A. The customer would like to improve OLTP application response time

B. The customer would like to improve the RTO (Recovery Time Objective)

C. The customer would like to improve the tape backup jobs processing time

D. The customer would like to improve the RPO (Recovery Point Objective) C

Correct Answer:
