QUESTION 1

An administrator gave a user access to two different roles in two different security policies. In one role, the user is granted access to function A. In the other role, the user is denied access to function A. What will happen when the user accesses function A?

- A. Nothing happens, the administrator will need to perform additional tasks.
- B. Based on the aggregation on permissions during evaluation by the Unica Platform, the user will be denied access to function A since the access was denied in one of the roles.
- C. Based on the aggregation on permissions during evaluation by the Unica Platform, the user will be granted access to function A since the access was granted in one of the roles.
- D. Based on the aggregation on permissions during evaluation by the Unica Platform, an error message will appear indicating that more permissions need to be defined, since the two permissions in the two roles conflict with one another.

Correct Answer: B

QUESTION 2

In Unica Campaign, when can a specialist configure whether a mailing should be Standard or Transactional?

- A. While configuring the Output List table.
- B. While configuring the Emessage document.
- C. While configuring the Emessage mailing tab.
- D. While configuring the Emessage process box.

Correct Answer: C

QUESTION 3
