**QUESTION 1**

When using SAP Net Weaver Administrator (NWA) for configuration of an AS ABAP+Java based system, which statement is correct?

- A. In SAP Net Weaver Administrator you can display the Java Virtual Machine (JVM) roperties.
- B. In SAP Net Weaver Administrator you can maintain Logon Groups for the AS ABAP.
- C. In SAP Net Weaver Administrator you can maintain profile parameters for the
- D. instance profiles.

Correct Answer: A

---

**QUESTION 2**

You have developed repository objects for AS ABAP-based SAP systems. Your development work is being logged within a transport request. What happens when you release your task in the Transport Organizer (transaction SE09) of the development system? Please choose the correct answer.

- A. Repository locks are released for the respective repository objects.
- B. The repository objects can no longer be changed.
- C. Object entries are copied into the object list of the transport request for the respective repository objects.
- D. The export process starts.

Correct Answer: C

---

**QUESTION 3**

In Oracle 10g, a tablespace SYSAUX is created automatically by the installation tool SAPINST. Which of the following statements is true? There are 2 correct answers to this question.

- A. The most important purpose of the SYSAUX tablespace is to reduce the load on the system tablespace and additionally simplifying the administration.
- B. The SYSAUX is a temporary help tablespace for the system tablespace. It provides a central space for necessary additional metadata outside of the system tablespace. Some components and products that previously used the system tablespace now use the SYSAUX tablespace.
- C. The tablespace SYSAUX contains a predefined set of SAP tables. In the creation of the database, they are copied into the system tablespace in one step, instead of creating every table step by step.
- D. The tablespace SYSAUX is needed by the installation tool SAPINST itself, and contains temporary Oracle dictionary information. It significantly reduces the installation time of the R3LOAD phase.

Correct Answer: AB

---

## QUESTION 4

What status can a job have? Choose the correct answer(s).

- A. Running
- B. Released
- C. Waiting
- D. Finished
- E. Error
