QUESTION 1

A software project manager has been provided with a requirement from the customer to place limits on the types of transactions a given user can initiate without external interaction from another user with elevated privileges. This requirement is BEST described as an implementation of:

A. an administrative control

B. dual control

C. separation of duties

D. least privilege

E. collusion

Correct Answer: C

Separation of duties requires more than one person to complete a task.
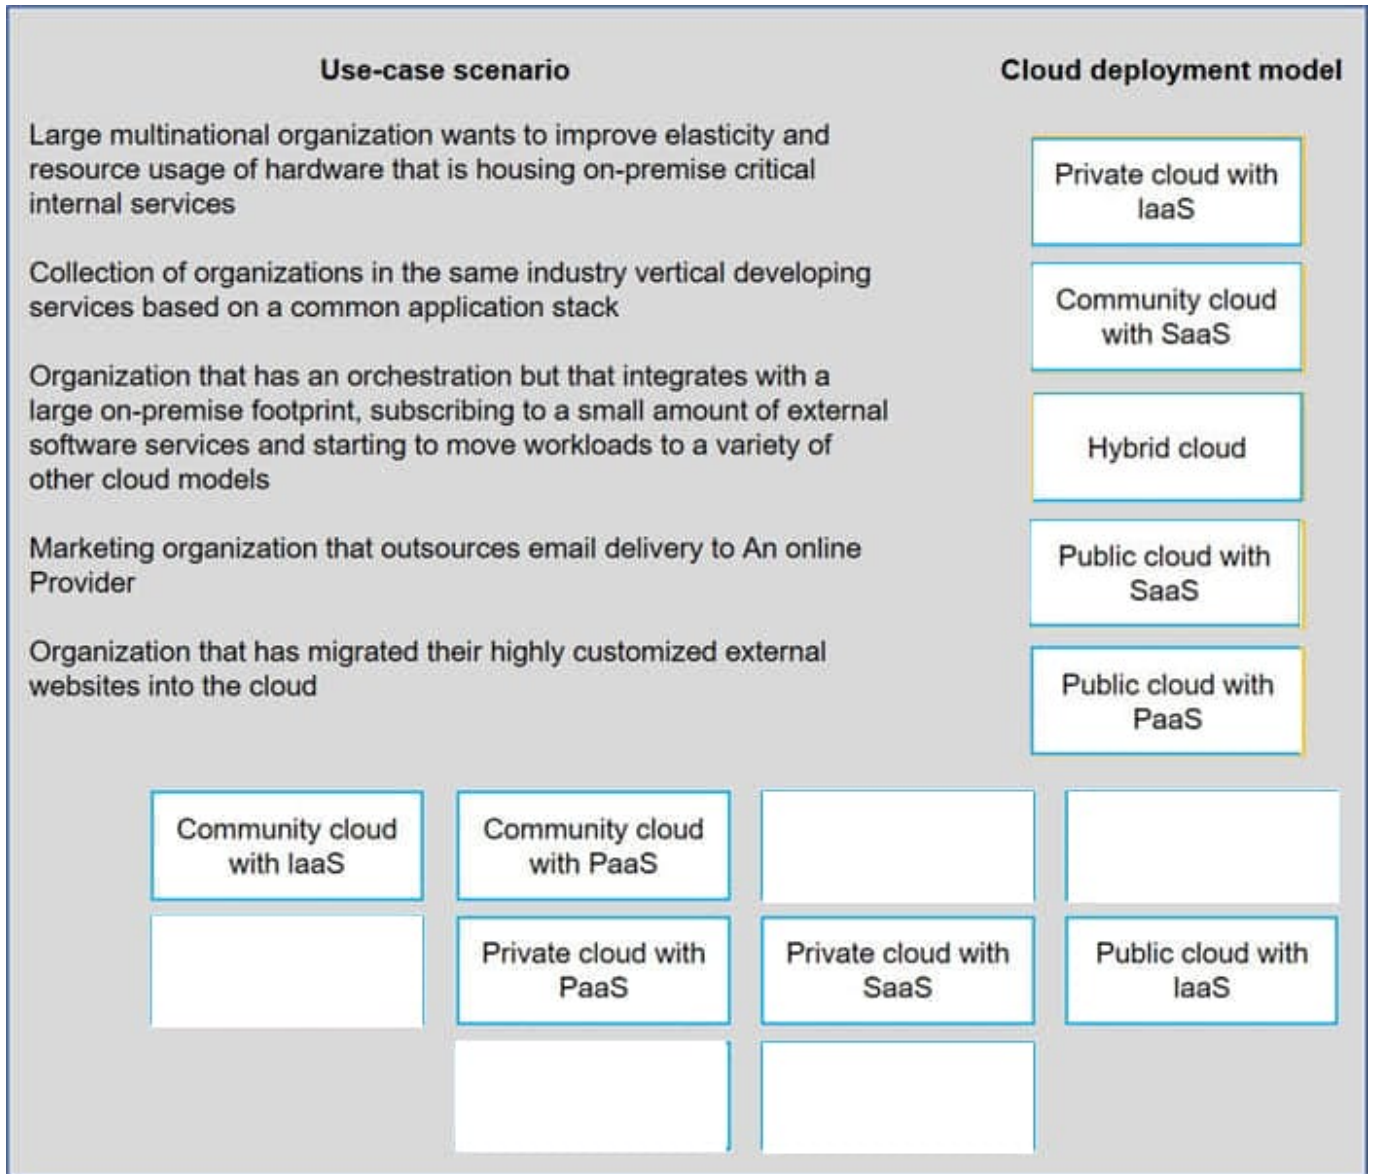

QUESTION 2

Drag and drop the cloud deployment model to the associated use-case scenario. Options may be used only once or not at all.

Select and Place:

Use-case scenario	Cloud deployment model
Large multinational organization wants to improve elasticity and resource usage of hardware that is housing on-premise critical internal services	
Collection of organizations in the same industry vertical developing services based on a common application stack	
Organization that has an orchestration but that integrates with a large on-premise footprint, subscribing to a small amount of external software services and starting to move workloads to a variety of other cloud models	
Marketing organization that outsources email delivery to An online Provider	
Organization that has migrated their highly customized external websites into the cloud	

Community cloud with IaaS	Community cloud with PaaS	Community cloud with SaaS	Hybrid cloud
Private cloud with IaaS	Private cloud with PaaS	Private cloud with SaaS	Public cloud with IaaS
	Public cloud with PaaS	Public cloud with SaaS	

Correct Answer:

Use-case scenario	Cloud deployment model
Large multinational organization wants to improve elasticity and resource usage of hardware that is housing on-premise critical internal services	Private cloud with IaaS
Collection of organizations in the same industry vertical developing services based on a common application stack	Community cloud with SaaS
Organization that has an orchestration but that integrates with a large on-premise footprint, subscribing to a small amount of external software services and starting to move workloads to a variety of other cloud models	Hybrid cloud
Marketing organization that outsources email delivery to An online Provider	Public cloud with SaaS
Organization that has migrated their highly customized external websites into the cloud	Public cloud with PaaS

Community cloud with IaaS	Community cloud with PaaS		
	Private cloud with PaaS	Private cloud with SaaS	Public cloud with IaaS

QUESTION 3

A company recently experienced a period of rapid growth, and it now needs to move to a more scalable cloud-based solution Historically. salespeople have maintained separate systems for information on competing customers to prevent the inadvertent disclosure of one customer\\'s information to another customer Which of the following would be the BEST method to provide secure data separation?

A. Use a CRM tool to separate data stores

B. Migrate to a single-tenancy cloud infrastructure

C. Employ network segmentation to provide isolation among salespeople

D. Implement an open-source public cloud CRM

Correct Answer: C

QUESTION 4

A healthcare company wants to increase the value of the data it collects on its patients by making the data available to third-party researchers for a fee. Which of the following BEST mitigates the risk to the company?

A. Log all access to the data and correlate with the researcher.

B. Anonymize identifiable information using keyed strings

C. Ensure all data is encrypted in transit to the researcher.

D. Ensure all researchers sign and abide by non-disclosure agreements.

E. Sanitize date and time stamp information in the records.

Correct Answer: C

Encryption plays a major role in data protection and is a popular tool for secunng data both in transit at-rest.
