**QUESTION 1**

Sue White is a project owner and wants to track the Total Planned Cost (\$350,000) and Total Planned Benefit (\$400,000) because she will need to compare the actual totals at the end of the project to the planned totals. She does not need to A. Create custom attributes to hold the values.

B. Use the Budget subpage to capture the data as totals because this is all the detail she needs.

C. Enter the information in her work breakdown structure (WBS) under tasks identified as Planned Cost and Planned Benefit.

D. Calculate the monthly planned cost and monthly planned benefit by resource roles and then use the Cost Plan and Budget Plan to enter the data in monthly buckets by role.

Correct Answer: B

---

**QUESTION 2**

Requirements planning provides you with a framework in which to define and track the requirements that form the deliverables for your business. Which statements about requirements are TRUE? (Choose three)

A. Requirements are associated with a release.

B. Requirements can be grouped into logical hierarchies.

C. Requirement represents an organizational need or deliverable.

D. For a requirement, ownership with an investment is a required field.

E. A requirement can only be linked to a task at the lowest work breakdown structure (WBS) level of a project.

Correct Answer: ABC

---
