QUESTION 1

A. Help icons bring you to the correct section of the online help.

B. Information on users and roles is available in the Data Aggregator guide only.

C. Online help is solely accessible from the Help link in the upper-right corner of the CA Performance Center UI.

D. The administration guides might save you time when you are attempting an unfamiliar administrative operation.

Correct Answer: AD

QUESTION 2

CA Performance Center can be uninstalled:

A. by using the Uninstall_PerformanceCenter program.

B. only if you first uninstall the Event Manager and then run sudo apt-get remove.

C. by using the Installation Wizard only,which will also uninstall MySQL data and temporary directories by default.

D. by first uninstalling the Data Aggregator and then following the prompts that will enable you to select the database and UI-related components to remove.

Correct Answer: A

QUESTION 3

When you are uninstalling the CA Performance Management components, which guidelines should you follow? (Choose two)

A. Uninstall the Data Collectors before you uninstall the Data Aggregator.

B. Uninstall the Data Aggregator before you uninstall the Data Repository.

C. Back up the Data Repository before you uninstall it,in case you want to use it at a later time.

D. When uninstalling the Data Repository,if the database is running in a cluster,launch adminTools from any node in the cluster.

Correct Answer: CD

QUESTION 4

When you are editing a monitoring profile for the first time, you notice that the default detection rate is zero and the Update Metric Families check box is selected. How does this affect how the Data Aggregator monitors device reconfiguration?

A. Device configuration will be set to false.

B. Device configuration changes will be ignored.

C. Device configuration changes will be immediately updated upon detection.

D. Device reconfiguration will be checked when changes to the metric family occur.

Correct Answer: C

QUESTION 5

When you configure event notifications, which factor should you always consider?

A. Other users might be able to view the notifications.

B. The action to delete notifications does not affect actual or future events.

C. Notifications will continue to appear when the Event Manager is set to disabled.

D. CA Performance Management needs to be configured to use port 162 to send traps.

Correct Answer: B
