QUESTION 1

Sue White logs into CA Performance Center as the Global Administrator. When Sue uses the Admin menu to administer a tenant:

A. she is granted a tenant user perspective.

B. she will be able to view all tenant spaces.

C. she will only be able to view Default Space items.

D. she is granted a tenant administrator perspective.

Correct Answer: D

QUESTION 2

When you create or edit a monitoring profile, you can use the Change Detection Rate option to set the frequency at which the Data Aggregator checks for changes. When you set the rate of detection, the Automatically Update Metric Families check box is selected by default. What happens if you clear this check box?

A. The Change Detection Rate field will no longer be editable.

B. The automatic updating of metric families will continue unless you also change settings for specific metric families.

C. The Data Aggregator will continue to automatically monitor new components but will no longer retire old components.

D. The Events Display dashboard will need to be monitored and updates will need to be performed manually on the Polled Metric Families page.

Correct Answer: D

QUESTION 3

In which circumstances is it particularly appropriate to use the multi-tenancy features of CA Performance Management? (Choose two)

A. To administer several customer environments from a single instance of CA Performance Center

B. To make it easier to configure CA Performance Center and its data sources for multiple languages

C. To segregate device monitoring in large business units,departments,or regional offices from each other

D. To have CA Performance Center reconcile the identity of a single managed item that is monitored by multiple data sources into a single item in the inventory

Correct Answer: AC

QUESTION 4

Which non-Data Aggregator data source is tenant aware?

A. CAeHealth

B. CA Spectrum

C. CA Network Flow Analysis

D. CA Application Performance Management (CA APM)

Correct Answer: C

QUESTION 5

Regardless of the deployment size, for CA Performance Center installations:

A. the CPU must be quad core and at least 1 GHz.

B. the web browser you use must run in Compatibility mode.

C. you must use a 32-bit version of Red Hat Enterprise Linux.

D. you must have 1 GB of free disk space in the /tmp directory and at least 40 GB of free disk space for the database.

Correct Answer: D
