QUESTION 1

Which of the following statements is true about explicitly defined member sets?

- A. They must have drill behavior defined manually.
- B. They assume the drill behavior from the top member set in the same branch.
- C. They are automatically configured for default drill behavior.
- D. They are too complex to enable drilling.

Correct Answer: A

QUESTION 2

Why would a report author consider overriding the default drill behavior?

- A. To maintain the behavior of a complex edge expression after drilling, such as one which returns the top 5 members of a set.
- B. To replace all members within a hierarchy when drilling through to a report with more detail.
- C. To drill down to the lowest level of the hierarchy and then drill down again to display only one member.
- D. To drill down on a member and have its children display as details and have the member drilled on display as summary.

Correct Answer: A

QUESTION 3

A report author can use a slicer to do what?

- A. Make the report database smaller and efficient
- B. Provide context to intersection values
- C. Reduce the number of members on the edge of the crosstab.
- D. Generate a zero suppression filter in the rows

Correct Answer: B

QUESTION 4

What is the default behavior when drilling down on an edge in a crosstab report?

- A. The level drilled on is replaced with the entire level below it.

- B. The edge expression is replaced with the children of the item drilled on.
- C. All edge expressions of the crosstab are replaced with their children.
- D. The edge expression is changed to another item in the query.

Correct Answer: B

QUESTION 5

If the syntax for the head function is `head(set_exp[,index_exp])`, then which of the following expressions is correct?

- A. `head(members([sales_and_marketing].[Products].[Products].[Product line]),2)`
- B. `head(([sales_and_marketing].[Products].[Products].[Product line]),2)`
- C. `head(order([sales_and_marketing].[Products].[Products].[Product line])2)`
- D. `head(members([sales_and_marketing].[Products].[Products].[Product line],2))`

Correct Answer: A
