### QUESTION 1

A specification states: "If the fossil is Jurassic in origin then it must be catalogued under Mesozoic post Triassic and cross referred to politic limestone.

If it is a tooth, then it must be catalogued under Dental remains. If the fossil is both Jurassic in origin and a tooth it will be catalogued under Mesozoic post Triassic and cross referred

to politic limestone only. "

The tester analyses this for decision table testing and finds the following conditions and actions:

C1: Jurassic C2: tooth A1: Catalogue as Mesozoic post Triassic A2: Cross refer to politic limestone A3: Catalogue as Dental remains How many test cases will a collapsed decision table have?

- A. 2
- B. 3
- C. 4
- D. 6

Correct Answer: B

---

### QUESTION 2

Ken, an entrepreneur in Leeds finds the quality of the tea locally available so low, that he decides to research superior teas around the world. He decides to market, sell and distribute these superior teas via the web. His market strategy is to offer superior products on a well-designed website with graphics that are fast to load, has high availability, superior usability and fast response times.

The website will offer the following:

- An innovative interactive catalogue of teas, which not only enables customers to buy the product, but also enables them to provide feedback by rating the teas (which will influence his stock purchasing levels)

-

Provide the customer with the ability to use secure credit card transactions

-

Provide the customer to give general feedback

Ken selects an iterative model for the development of the prototypes. The team consists of three developers that are experienced in web development. Ken, although he doesn't have technical skillset, is concerned with quality. He doesn't

believe a lot of documentation is necessary and he wants the website to be completed quickly.

The test basis contains the following:

-Story boards that show the information flow and page links through the site

-HTML pages developed to date.

-

A statement of non-functional requirements.

With the strategy taking shape, Ken asks your advice on the specific testing techniques that should be used to complete the required testing, bearing in mind the nature of the application and the nature of Ken's overall objectives.

We now make the assumption that in the scenario described as above, exploratory testing was selected as being the main test technique. You have now been given the task of specifying, executing and recording the exploratory test sessions.

Select TWO of the options below to define what you will typically use for specifying, executing and recording the sessions?

A.

Record the results in email and send the email to the test manager.

B.

Use external testers on the team to provide a new approach and fresh view to the testing effort.

C.

Create test charters for planned test session.

D.

Use debriefing sessions with stakeholders and other testers to discuss the findings and new risks identified.

E.

Define concrete test cases to be executed by the developers.

Correct Answer: CD

---

### QUESTION 3

The use case will be used as a basis for the design of usability test scenario's. As a tester you are asked to review the ATM use case from the perspective of usability testing. As a tester you are asked to review the ATM use case provided below. The use case will be used as a basis for functionality testing to be performed later.

<b>System:</b>	XYZ Bank ATM
<b>Goal of test</b>	The goal of this use case is to test the withdrawal of cash from the ATM
<b>Description</b>	<b>Context:</b> This is core functionality, so this is an important test of a frequent usage function <b>Actors:</b> Any user may use this function
<b>Preconditions</b>	The ATM is on and functional The user has a current debit card
<b>Description of use case flow</b>	ATM start screen is showing 1. the user inserts card 2. the user types in PIN 3. the user selects "cash with receipt" 4. the user selects £50 5. the user selects "no further service"
<b>Expected results</b>	The ATM returns the card, delivers £50 and a receipt, clears the screen and displays the start screen
<b>Failure conditions</b>	On screen instructions not clearly displayed On screen instructions not simple to follow Card not returned (see functional tests)
<b>Additional attention points</b>	Note response times

Which one of the comments, described hereafter, would be the MOST important one you would make?

- A. Acceptance criteria not defined
- B. Business priority is missing
- C. Post condition not defined
- D. Alternative flows are missing

Correct Answer: D

#### QUESTION 4

While identifying scenario\'s for the use case "copy A4 ?A4" for a new copier, the following scenario\'s were identified:  
Basic scenario: single side to single side

Deviations: single side to double side, copy of a set, copy using the automatic document feeder

Failures: no paper in paper tray, paper jam, out of staples

During interviews with both development and end-users it has been established that the failure scenario's can occur during the basic scenario and during each of the deviations.

How many test cases will be needed to achieve full coverage both for valid and invalid situations?

- A. 10
- B. 12
- C. 16
- D. 20

Correct Answer: C

---

#### QUESTION 5

Tax system A tax system needs to be updated due to new legislation. For a person with a salary of less than

20.000 and who is married, the tax needs to be re-calculated. If the person also has more than two and less than five children, an additional 10% reduction is applicable. How many cases are required to test the "Tax system" specification using a decision table which is not collapsed?

- A. 2
- B. 4
- C. 6
- D. 8

Correct Answer: D
