QUESTION 1

"Statement Testing" is part of;

- A. Experience based testing
- B. Decision Testing
- C. Specification Based testing
- D. Structured based testing

Correct Answer: D

QUESTION 2

What other details should be included in the following incident report when it is first submitted? Date of Issue: 23/11/05
Severity: P1 Build: Version15.6 Details: Expected field to be limited to 15 chars, able to enter 27

- A. Suggested solution, priority and number of defects assigned to this developer.
- B. Status of the incident, degree of impact, Test Case Number.
- C. History, related defects and expected fix time.
- D. Line of code, number of defects found, time of day.

Correct Answer: B

QUESTION 3

Tests have been specified for the latest software release and users have prioritised these. However, there are some dependencies between tests as shown in the table below (e.g. Test ID. `123` cannot be run until Test ID. `456` has been successfully completed).

Test ID.	Description	Prioritisation	Dependency
1	List all users on screen	Low	
2	Regression test of daily processing	Medium	
3	Create an invoice	High	4
4	Change user details	Medium	1
5	Print all outstanding invoices	High	
6	Chase all outstanding invoices	Medium	5
7	Regression test of weekly processing	High	2
8	Amend invoice details	Medium	3
9	Bank reconciliation processing	Medium	3
10	Mark invoice as paid	High	9

Which test execution schedule best meets the prioritisation and dependency conditions?

- A. 3, 5, 7, 10, 2, 4, 6, 8, 9, 1.
- B. 5, 7, 4, 3, 9, 10, 1, 6, 8, 2.
- C. 6, 1, 2, 9, 4, 3, 5, 7, 8, 10.
- D. 1, 4, 3, 5, 2, 7, 9, 10, 6, 8.

Correct Answer: D

QUESTION 4

After a record of poor quality software releases (incorrect menu selection options, new features that do not work, users allowed to change security levels without administrator rights), you have been asked to review the test capability in your company. You have limited time to do the review before the next project, which type of testing would be MOST appropriate to review first?

- A. Functional testing.
- B. Non-functional testing.
- C. Performance testing.
- D. Structural testing.

Correct Answer: D

QUESTION 5

Which of the following test organizations has the highest level of independence?

- A. Independent testers within the development teams

- B. Independent testers from the user community
- C. Independent test specialists for specific test types, such as usability, performance or certification test specialists
- D. Code tested by another developer from the development team

Correct Answer: C
