QUESTION 1

Metadata is described as which of the following?

- A. A unique data field.
- B. A description of a data element.
- C. A file header.
- D. A large data object.

Correct Answer: B

QUESTION 2

Joe, a developer, has a virtualization environment consisting of four hosts. Joe needs to configure the environment to be able to place new VMs automatically to the recommended host with more resources.

Which of the following must be enabled on the environment to achieve this?

- A. Dynamic power control
- B. Workload scheduling
- C. High Availability
- D. Load balancing

Correct Answer: B

QUESTION 3

A new server is connected to the fibre channel switch. In order to allow the server to see its allocated storage on the storage array, the administrator must configure the server's WWNN as a member. The server administrator is configuring which of the following?

- A. Zoning
- B. LUN masking
- C. Supernetting
- D. VLAN tagging

Correct Answer: A

QUESTION 4

A company has instituted a cloud solution where the solution consolidates resources between the human resources and engineering departments. The combined resources are available to be assigned dynamically to each of the two departments without any visible impact on performance to the users. Which of the following terms BEST describes this cloud characteristic?

- A. Resource consolidation
- B. Resource pooling
- C. Dynamic pooling
- D. Cloud computing

Correct Answer: B

QUESTION 5

Below is the output from a troubleshooting activity:

1.
SaaS application is unavailable to a set of users at a single site.
2.
WAN connectivity was considered to be the cause of the problem.
3.
Upon testing, it seemed the WAN connectivity was up, but the default gateway was unreachable from the internal users.
4.
The faulty switch was replaced to bring up the connectivity.
5.
The incident was documented.

Based on the methodology, which of the following steps was overlooked during the activity?

- A. Problem identification
- B. Establish theory of probable cause
- C. Verify full system functionality
- D. Establish a plan of action and implement the solution

Correct Answer: C
