D. Only ii., v., vi., vii. and viii

Correct Answer: C

---

### QUESTION 5

ABC Health Care is a large healthcare delivery chain, with 8 hospitals and more than 20 health centers. It has decided to streamline its patient care system. The new system needs to integrate data from more than 20 clinical, scheduling, and billing systems. It needs to support all types of data-intensive projects, which includes masking sensitive health information.

You have been approached to address privacy concerns during integration of the new system. Arrange the below listed steps in sequential order for the most appropriate implementation of privacy protection measures.

I. Creating a privacy policy to safeguard the sensitive personal data

II. Measuring and monitoring privacy policy and processes implementation to provide ongoing proof that data has been protected

III. Defining and classifying sensitive personal data, including data and metadata patterns

IV.

Masking data consistently across the systems to meet various compliance standards

V.

Discovering where the sensitive personal data is stored across databases, applications, endpoints and servers

Please select the most logical sequence from below options:

A. II - I - IV - V

B. V - II - III - I - IV

C. III - V - I - IV - II

D. I - III - V - II - IV

Correct Answer: B
