QUESTION 1

You are designing a cloud to support an Oracle OLTP environment. What is the recommended read/write ratio to use in this environment?

- A. 2 to 1
- B. 3 to 1
- C. 4 to 1
- D. 5 to 1

Correct Answer: D

QUESTION 2

What is a deliverable of the cloud design process?

- A. Training for IT staff
- B. Operational procedures
- C. Lower infrastructure costs
- D. Reduced time to market

Correct Answer: C

QUESTION 3

An organization is considering the use of a cloud gateway to back up services in their private cloud environment. They want to use their existing backup application. What should they ensure about the cloud gateway appliance?

- A. Supported by the backup application Supports the target object storage APIs
- B. Supported by the hypervisor Supports the target object storage APIs
- C. Supported by the backup application Supports the target SMB storage APIs
- D. Supported by the hypervisor Supports the target SMB storage APIs

Correct Answer: A

QUESTION 4

An organization uses Microsoft Active Directory (AD) for service authentication in their private cloud. They want to use the same authentication source for services in the public cloud. External employees access services in both clouds and need to authenticate with AD. The organization wants to minimize and secure network traffic. Which solution will

address these requirements?

- A. Connect the two clouds through IPsec VPNPlace AD controllers in the private cloud only
- B. Connect the two clouds through IPsec VPNPlace AD controllers in the private and public clouds
- C. Configure perimeter firewalls to allow AD trafficPlace AD controllers in the private and public clouds
- D. External users connect with IPsec VPNPlace AD controllers in the private cloud only

Correct Answer: B
