QUESTION 1

There are many reasons for an organization to become interested in DevOps.

When should an organization become interested in DevOps?

- A. When automated testing is achieved and all functional requirements are tested automatically
- B. When continuous delivery is achieved and every change automatically results in a new version of the product
- C. When continuous deployment is achieved and every change is immediately released to the customer
- D. When continuous integration is achieved and every update to the code is saved immediately to Production
- E. When the core business of the organization highly depends on information technology

Correct Answer: B

QUESTION 2

In what way does DevOps take operational requirements into account?

- A. By considering the workflow from start to end
- B. By defining a feature set for first marketing
- C. By defining all activities that must be done

Correct Answer: C

QUESTION 3

DevOps implies that not only the boundary between Development and Operations must disappear.

Which other boundary must also disappear?

- A. The boundary between Development and marketing
- B. The boundary between IT management and the rest of the IT department
- C. The boundary between the finance department and Development
- D. The boundary between the HR department and Operations
- E. The boundary between the IT department and the business

Correct Answer: A

QUESTION 4

What is not a proper use of the deployment pipeline?

- A. As an audit log that enables the monitoring of all changes
- B. As an optimal way to link development and testing together
- C. To accelerate the delivery of changes to Production
- D. To always maintain the system in a working condition

Correct Answer: B

QUESTION 5
