C. dynamic auto-configuration

D. pre-built EMC solutions

Correct Answer: B

QUESTION 4

A customer wants to provide its graphic artists with a Documentum WDK-based client that displays files as image thumbnails. The customer wants the client user interface to have a similar look and feel to Webtop.

Which client product satisfies this requirement?

A. Webtop

B. Web Publisher

C. Digital Asset Manager

D. Media Workspace

Correct Answer: C

QUESTION 5

A client application applies the "In Review" version label to a document object.

What is the expected behavior the next time a user performs a checkin on that document?

A. The "In Review" version label can be applied to the new version of the document and the previous version.

B. The "In Review" version label can be applied to the new version of the document and is removed from the previous version.

C. The "In Review" version label cannot be applied to the new version of the document and remains with the previous version.

D. The "In Review" version label can be applied to the new version of the document, while the previous version with the same label will be deleted by the Content Server.

Correct Answer: B
