QUESTION 5

Refer to the exhibit.

Converged Ethernet Ports

FC Ports

A VDC architect has acquired switches to be used as converged access layer switches. All Fibre Channel traffic operates at 8 Gbps and

all ports operate at line-rate. All the FC ports will be configured as ISLs and be connected to the SAN core switches. An equal number of converged ports will be configured as standard Ethernet ports and connected to the aggregation layer switches.

What is the expected oversubscription ratio of the FC ports on

this switch?

A. 3:1

B. 5:1

C. 6:1

D. 8:1

Correct Answer: B
