QUESTION 1

Which of these actions adds a host to the temporary or permanent blocked sites list? (Select three.)

A. Enable the AUTO-block sites that attempt to connect option in a deny policy.

B. Add the site to the Blocked Sites Exceptions list.

C. On the Firebox System Manager >Blocked Sites tab, select Add.

D. In Policy Manager, select Setup> Default Threat Protection > Blocked Sites and click Add.

Correct Answer: ACD

A: You can configure a deny policy to automatically block sites that originate traffic that does not comply with the policy rulese

1.

From Policy Manager, double-click the PCAnywhere policy.

2.

Click the Properties tab. Select the Auto-block sites that attempt to connect checkbox.
