QUESTION 1

You work as a Network Administrator for Perfect Solutions Inc. You have to install Windows 2000 on a computer that will work as a file server. You have to format the hard disk of the computer, using a file system that supports encryption. Which of the following file systems will you use to accomplish this?

- A. NTFS
- B. FAT32
- C. HPFS
- D. FAT16

Correct Answer: A

QUESTION 2

John works as a professional Ethical Hacker. He has been assigned a project to test the security of www.we-are-secure.com. He enters the following command on the Linux terminal:

```
chmod 741 secure.c
```

Considering the above scenario, which of the following statements are true?

Each correct answer represents a complete solution. Choose all that apply.

- A. By the octal representation of the file access permission, John is restricting the group members to only read the `secure.c` file.
- B. The textual representation of the file access permission of 741 will be `-rwxr--rw-`.
- C. John is restricting a guest to only write or execute the `secure.c` file.
- D. John is providing all rights to the owner of the file.

Correct Answer: AD

QUESTION 3
