QUESTION 1

Which of the following objects in an Active Directory serve as security principles? Each correct answer represents a part of the solution. Choose all that apply.

- A. User accounts
- B. Organizational units (OUs)
- C. Computer accounts
- D. Groups

Correct Answer: ACD

QUESTION 2

You work as a Network Security Analyzer. You got a suspicious email while working on a forensic project. Now, you want to know the IP address of the sender so that you can analyze various information such as the actual location, domain information, operating system being used, contact information, etc. of the email sender with the help of various tools and resources. You also want to check whether this email is fake or real. You know that analysis of email headers is a good starting point in such cases.

The email header of the suspicious email is given below:

```
X-Apparently-To: itzme_adee@yahoo.com via 209.191.91.180; Mon, 10 Aug 2009 07:59:47 -0700
Return-Path: <bounce@vetpaintmail.com>
