QUESTION 1

The administrator of a Hitachi NAS Platform wants to automate the replication of a directory called "Finance" within the file system called "accounts". Other data in this file system should not be replicated. Which product should be used to achieve this?

A. Hitachi TrueCopy (TC)

B. Hitachi Universal Replicator (HUR)

C. Incremental Data Replication

D. Data Migration

Correct Answer: C

QUESTION 2

A customer wants to implement a 2 PB Hitachi NAS Platform 3200 solution while using a Hitachi AMS2000 Family storage system. Which two must be considered during the solution design phase? (Choose two.)

A. The 3200 supports a 2 PB Storage Pool size.

B. The largest RAID group size in a Hitachi AMS2000 Family is 38D+2P.

C. A minimum of 8 storage pools are required to achieve 2 PB.

D. The largest LUN size supported by a Hitachi AMS2000 Family is 60 TB.

Correct Answer: CD

QUESTION 3

You are discussing Fibre Channel (FC) connectivity requirements with a customer who is comparing the capabilities of the different Hitachi NAS Platform models. Which model has a minimum connectivity requirement of 4 FC ports?

A. 2200

B. 3080

C. 3100

D. 3200

Correct Answer: D

QUESTION 4

A customer wants to implement a Hitachi NAS Platform 3200 in a 1 GbE network environment and they are asking

about potential performance limiting factors in a network. Which two factors should they take into consideration? (Choose two.)

A. the use of a Network File System

B. how ASICs are shared in a switch

C. the number of modules (blades) in a switch

D. the number of network hops

Correct Answer: BD

QUESTION 5

You are designing a solution with a Hitachi NAS Platform 3200 connected to a Hitachi AMS2000 storage system. A key requirement is to ensure path failover in the event of an AMS storage port failure. Which configuration must be used?

A. path from hports 1, 2, 3 and 4 to each system drive

B. path from hports 1 and 3 to each system drive

C. path from hports 1, 3, 5 and 7 to each system drive

D. path from hports 2 and 4 to each system drive

Correct Answer: C
