QUESTION 1

What is the purpose of an Intrusion Prevention System (IPS)?

- A. To block anomalies and allow everything that is within the baseline
- B. To deny everything except what is explicitly allowed (a white list)
- C. To provide access control between two networks of identical trust level
- D. To monitor all network traffic and attempt to block malicious activity in real-time

Correct Answer: D

QUESTION 2

What is a unique HP TippingPoint selling point?

- A. Purpose-built hardware with very mature IPS deep-inspection engine
- B. Purpose-built software with very mature IDS deep-inspection engine
- C. Market-leading Network Behavior and Anomaly Detection (NBAD)
- D. Market-leading anti-virus systems (AV)

Correct Answer: B

QUESTION 3

Which statement is true about the HP TippingPoint Rep-DV service?

- A. It is a subscription-based service with a separate annual charge on top of the NGIPS or NGFW appliance price.
- B. It is a pay-per-use service with an additional charge on top of the IPS appliance price, based on number of uses.
- C. It is a subscription-based service and is included in the NGIPS or NGFW appliance price.
- D. It is a referral-based service and is included in the NGIPS or NGFW appliance price.

Correct Answer: A

QUESTION 4

What is HP TippingPoint's Web Application Digital Vaccine (WebApp-DV)?

- A. HP TippingPoint Web applications delivered through the Threat Management Center
- B. HP TippingPoint Web applications delivered through ThreatLinQ

C. An advanced mobile application that scans to uncover source code vulnerabilities

D. A program that scans individual Web applications to see where they need protection, and then builds targeted IPS filters to provide it

Correct Answer: D

QUESTION 5

Where can you find independent statistics about a security vendor's activity in zero-day exploit research?

A. In the security vendor's white-papers and presentations depicting diverse statistics

B. On the software vendor's website, which lists third-party individuals and organizations who find zero-day exploits in the vendor's software products

C. In computer emergency response team (CERT) blogs around the globe

D. On the NGIPS/NGFW vendor's website where they compile statistics about their zero-day exploit research

Correct Answer: B
