QUESTION 1

DRAG DROP

Match the tools and resources with the features they provide.

Select and Place:

Tool or Resource	Features
HPE Spock	enables you to work with your customers to design a storage infrastructure to meet their needs
HPE Storage Sizing Tool	provides graphics that you can use to create diagrams, storage network cable management, and schematics for your proposed solutions
VisioCafe	provides a mix of validated storage configurations, guidelines, and suggestions on a variety of HPE storage solutions

Correct Answer:

Tool or Resource	Features
	HPE Storage Sizing Tool enables you to work with your customers to design a storage infrastructure to meet their needs
	VisioCafe provides graphics that you can use to create diagrams, storage network cable management, and schematics for your proposed solutions
	HPE Spock provides a mix of validated storage configurations, guidelines, and suggestions on a variety of HPE storage solutions

QUESTION 2

What are benefits of using the NinjaProtected Tool? (Choose two.)

- A. it simplifies the number of licenses required
- B. it measures the performance of transactions
- C. it identifies the agents that the solution needs
- D. it assists in finding opportunities for cost reductions
- E. it identifies potential deduplication benefits

Correct Answer: DE

QUESTION 3

You are designing a new HPE 3PAR StorServ array for a customer. The customer is concerned about whether HPE 3PAR is able to address their challenges.

Which HPE resource should you use to show the customer how HPE can help resolve their concerns?

- A. HPE Information Library
- B. HPE Ninja Tools
- C. VisioCafe
- D. HPE Solution Demo Portal

Correct Answer: D

QUESTION 4

When configuring volume access on a Nimble storage array, in which scenario would an administrator select multiple initiators to access a volume?

- A. The server administrator has requested MPIO access for the host.
- B. The volume will be used as a CIFS storage volume by a gateway device.
- C. The server administrator has requested a high performance volume.
- D. The volume will be used as a datastore for a virtualization cluster.

Correct Answer: D

QUESTION 5

A customer needs to deploy a storage solution for a new application that requires long-term data protection, retention, immutability, and encryption with write once, read many (WORM) data access policies.

Which product would you recommend?

- A. Double Take
- B. HPE StoreEasy
- C. HPE StoreOnce
- D. iTernity iCAS

Correct Answer: C
