**QUESTION 1**

Your customer is interested in HPE GreenLake solutions, but would like assistance with operating the solution and performing tasks such as monitoring, design, patching, and troubleshooting. You decide the customer is a good prospect for Adaptive Management Services (AMS).

Is this something you should explain to the customer?

Solution: HPE operates and administers the HPE hardware components, while customers must operate and administer middleware and applications.

A. Yes

B. No

Correct Answer: B

---

**QUESTION 2**

Is this a correct statement about HPE GreenLake workload templates?

Solution: The SAP HANA template is designed for customers requiring high performance and low latency for data processing and analytics.

A. Yes

B. No

Correct Answer: B

---

**QUESTION 3**

Is this a reason to create a custom HPE GreenLake solution as opposed to using the HPE GreenLake Quick Quote tool?

Solution: The customer is a mid-sized company

A. Yes

B. No

Correct Answer: B

---

**QUESTION 4**

Is this an appropriate use case for HPE GreenLake?

Solution: A customer wants to improve the company's ability to forecast the IT capacity it will need.

A. Yes

B. No

Correct Answer: A

---

## QUESTION 5

You are designing a custom HPE GreenLake solution and have created solution BOMs.

Is this the next step in the process?

Solution: Apply discounts to the line pricing in the BOMs.

A. Yes

B. No

Correct Answer: B
