QUESTION 1

Which fabric benefit does Synergy have over BladeSystems?

- A. eliminates the need for Link Modules
- B. supports Fiber Channel over Ethernet
- C. eliminates the need for a Top of Rack Switch
- D. provides redundant Top of Rack switches within one rack

Correct Answer: C

QUESTION 2

Why does HPE OneView not affect operating systems security on monitored HPE ProLiant Gen9 servers?

- A. It sets secure usernames and strong passwords in the server operating system.
- B. It uses iLO embedded SNMP stack to receive hardware alerts.
- C. It relies on Kerberos for health-related communications.
- D. It uses certificate-based authentication for health-related communications.

Correct Answer: B

QUESTION 3

A customer is building an isolated management network for Gen8/Gen9 servers. The customer plans to use the iLO federation feature for all of them.

What should the architect verify when proposing network infrastructure for this purpose?

- A. that the SNMP is enabled on all of the servers within the same iLO Federation group
- B. that the managed servers are equipped with network adapters supporting VXLAN
- C. that the switches that management ports will be connected to will support multicast
- D. that the customer has licenses for intelligent Resilient Framework functionality

Correct Answer: B

QUESTION 4

How does HPE offer infrastructure as a service differentiator?

- A. providing a dedicated manual process for each infrastructure product
- B. using converged, software-defined, and cloud ready resources
- C. offering a siloed technology-centric physical infrastructure
- D. optimizing workloads with a common modular architecture

Correct Answer: B

QUESTION 5

Which components are typically redundant in a tower server? (Select two.)

- A. processors
- B. fans
- C. management modules
- D. voltage regulator modules
- E. power supplies

Correct Answer: BE
