QUESTION 1

What benefit does the Aruba AppRF feature provide your customers?

- A. It dynamically adjusts the radio power to reduce interference in high-density AP environments.
- B. It connects clients to the best available AP, eliminating issues caused by clients that stick to an AP even if the signal strength is weak.
- C. It inspects wireless traffic to monitor how applications are used and to give priority to business-critical applications.
- D. It improves wireless performance by moving AP radios to channels that are not experiencing RF interference.

Correct Answer: C

QUESTION 2

What is one way HPE InfoSight closes the app-data gap?

- A. It consolidates multiple arrays and pools the storage within a virtualized environment.
- B. It improves application performance by covering compute and storage.
- C. It monitors the customer's environment and resolves issues before they disrupt the business.
- D. It provides multicloud mobility so that IT can easily move data between on-premises arrays and the cloud.

Correct Answer: B

QUESTION 3

What is the danger of firmware attacks?

- A. They cause the server to immediately shut down, creating a service outage.
- B. They render the server unusable since there is no way to remediate them.
- C. They are the most common entry point for a ransomware attack.
- D. They are difficult to detect and can be one of the most damaging.

Correct Answer: B

QUESTION 4

What is one initiative that SMBs are pursuing to achieve the same IT-centric vision that enterprises have?

- A. Define the boundaries between IT and line of business managers
- B. Create more data center silos
- C. Improve customer relationships
- D. Significantly increase their IT budget for maintenance

Correct Answer: C

QUESTION 5

Your customer wants to know why she should deploy HPE MSA over a competing solution. What is one thing you can tell this customer?

- A. MSA provides application-level encryption to secure the company's data.
- B. MSA is the only flash solution that is affordable enough for a small company.
- C. MSA is a leading disk enclosure solution that greatly simplifies capacity expansion.
- D. MSA has been the leading entry-level Fibre Channel array for nine years.

Correct Answer: B
