QUESTION 1

Which snapshot technology do HPE Nimble arrays use?

- A. ROW
- B. ROW with sweeping
- C. COW
- D. COW with sweeping
- E. ROW with defragmentation

Correct Answer: A

QUESTION 2

Which parameters are configured during the initial array configuration? (Choose three.)

- A. Subnets
- B. SNMP settings
- C. Firewall Port settings
- D. Replication partners
- E. NTP servers
- F. DNS servers

Correct Answer: AEF

QUESTION 3

What is the HPE Nimble grouping of volumes that share snapshot/replication schedules?

- A. volume group
- B. consistency group
- C. volume set
- D. volume collection

Correct Answer: D

QUESTION 4

DRAG DROP

Match the event log severity levels to their descriptions.

Select and Place:

<u>SEVERITY</u>	<u>DESCRIPTION</u>
All	An event has occurred that does not require action to be taken and does not affect system performance. This level of event is useful for troubleshooting or for determining system trends.
Critical	An event has occurred that might impact system performance. Action will likely be necessary, but no damage will occur if the action is not taken immediately.
Info	An event has occurred that requires immediate attention. Data loss or hardware damage may occur if action is not taken quickly. It also triggers email notification, defined on the ADMINISTRATION tab.
Warning	Events are shown regardless of severity. Manual intervention may or may not be needed.

Correct Answer:

<u>SEVERITY</u>	<u>DESCRIPTION</u>
Info	An event has occurred that does not require action to be taken and does not affect system performance. This level of event is useful for troubleshooting or for determining system trends.
Warning	An event has occurred that might impact system performance. Action will likely be necessary, but no damage will occur if the action is not taken immediately.
Critical	An event has occurred that requires immediate attention. Data loss or hardware damage may occur if action is not taken quickly. It also triggers email notification, defined on the ADMINISTRATION tab.
All	Events are shown regardless of severity. Manual intervention may or may not be needed.

QUESTION 5

Which system roles can be assigned to a user on an HPE Nimble array? (Choose three.)

- A. Backup
- B. Guest
- C. Read Only
- D. Service
- E. Operator
- F. Poweruser

Correct Answer: BEF
