QUESTION 1

You are visiting a site configured with IntroSpect, and the on-site admin tells you that they do not think that one of their database servers has fired any alerts for large download or strange access patterns. Could this be a reason? (The database server needs to be listed under Configuration>Analytics>User Correlation Config.)

A. Yes

B. No

Correct Answer: B

QUESTION 2

You are an administrator who made a few configuration changes in the IntroSpect Packet Processor, and a restart is required after those changes. Is this a valid method to restart the Packet Processor? (SSH into the Packet Processor, and log in as "admin" and issue the command #> shutdown -s now.)

A. Yes

B. No

Correct Answer: A

QUESTION 3

While discussing network security with an associate, the associate asks why a company would need internal monitoring when they have firewalls and Wireless Intrusion Protection configured. Is this an appropriate response? (You point out that while these security measures are required, there are other attack vectors in a network that are simply not protected by these.)
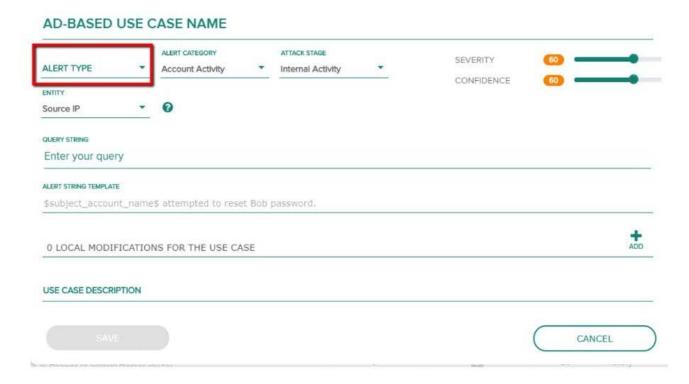

A. Yes

B. No

Correct Answer: A

QUESTION 4

Refer to the exhibit.

Which alert is not supported by AD-based use case? (Suspicious user login.)

A. Yes

B. No

Correct Answer: B

QUESTION 5

Refer to the exhibit.

You have been assigned a task to monitor, analyze, and find those entities who are trying to access internal resources without having valid user credentials. You are creating an AD-based use case to look for this activity. Could you use this entity type to accomplish this? (Dest IP.)

A. Yes

B. No

Correct Answer: A
