QUESTION 5

What happens when a client successfully authenticates but does not match any Enforcement Policy rules?

- A. no role is applied to the device
- B. logon profile is applied to the device
- C. default Enforcement profile is applied
- D. guest rule is applied to the device
- E. default rule is applied to the device

Correct Answer: C

The first time a device connects, it's allowed on in a limited state (session timeout is a low value and DHCP is allowed) because it doesn't match any Enforcement policy rules based on Endpoint Category. The default enforcement profile is used.
